

Shubhra Ranjan IAS STUDY

One Stop for Civil Service Examinations

HAND HOLDING PROGRAMME - PRELIMS Classroom and Test Series - 2018

Purpose

Even after reading basic resources available in the market we found that many students end up in getting 95 to 100 marks. Though good in answer writing for mains, they are not able to clear prelims. From our discussion with students, we came to conclusion that there is need to support students in forming strategy for prelims or in tackling MCQs, how to take risk while solving prelims paper, how many questions shall one attempt, how shall student read current affairs for prelims. We want to help students understand the prelims by analysing OLD prelims question papers to realign the study strategy accordingly. We want to help students to increase their score from BELOW CUT OFF to ABOVE CUT OFF.

Concepts

HAND HOLDING involves consistent support to students. Many students face difficulties which may not be solved in the lectures. Some students reading all resources are not able to tackle analytical prelims questions on their own. Many are confused even about the resources/books to be read. Some are blindly following whatever material is available in market. There is need of guidance/discussion with students. Right from what are the resources that we need to study to how to take risk while prelims question.

Approach

The targets will be given to students for reading and revising. Based on that students will have to solve the tests. Prelims Test

Schedule is flexible. We expect students should attempt tests only after revisions. After the test, students can come up with PRELIMS TEST

PERFORMANCE

SHEET to faculty with details.

Features of the programme: -

1. Boosts Prelims Score from BELOW CUT OFF (90/100) to ABOVE CUT OFF.
2. Helps to realign your study strategy to crack prelims.
3. ONLINE/OFFLINE Prelims Test Series (32 Tests) along with Module.

4. One to one meetings with students to analyse Prelims Test Performance.
5. No Flooding with redundant content rather focus on how to use available study material.
6. Schedule: -Lectures will be 7 days a week. (8 AM to 10:30 AM)
7. Value addition through lectures: - • MAPS preparation in Geography
